Wednesday 7<sup>th</sup> April 2010

Dear Dennis

I write on behalf of the Friends of Ward End Park, who wish to extend their warmest thanks to Quadron for the on-going help that they give the 'Friends' in maintaining the Community Gardens which is used by the local Primary Schools, for children to learn more about their environment and nature.

In particular, the 'Friends' wish to thank you for your assistance with filling the raised vegetable plots in the Community Garden. The 'Friends' recognize that this job would have been very labour intensive and time consuming for the Friends to have achieved on their own and are extremely grateful to you for organising your staff team to support us with this work by making resources available and giving in kind financial contribution.

We would like to say how appreciative we are for our links with Quadron. The company offers the local community a personal service above and beyond the call of contractual obligations and the staff work with a relationship building and person centred approach developing community relations and strengthening community cohesion.

Please do pass on our thanks to all the staff that have come to us personally to help with the Spring Clean Up in the Community Garden.

Yours sincerely,

Sarah Cooper  
Secretary to the Friends of Ward End Park
